

INDUSTRIAL BAG CLOSING THREAD

FEATURES

- 100% polyester
- Silicon treated
- Lint reduction technology
- High breaking strain
- Food safe certified
- UV & moisture resistant
- Continuous knotless 'S' twist thread - no knots to break needles
- Custom colours and colour combinations available
- City & rural delivery across New Zealand and Australia
- Industrial sewing technicians available for thread usage advice and machine sales & maintenance
- 10 kg cone – Cut down on the number of cone changes required per shift
- Available in the following cone sizes: 250g, 2kg, 4kg, 10kg

Premium 100% polyester bag closing thread will ensure a secure and safe closure for a wide range of bags and sacks.

With a silicon treatment, Aurora's industrial sewing thread runs smoothly with minimal lint build up and has an excellent yield and breaking strain rating.
