

FISCHBEIN MODEL F PORTABLE BAG STITCHER

FEATURES

- Up to 8 bpm
- Heavy-duty
- Automatic lubrication and extended wear bushings
- Light weight handheld
- Durable non-corrosive epoxy finish for longer life

OPTIONS

- Plain and tape sew applications
- Spring Balance unit – a heavy-duty balance to support any model of bag closer. These high quality balancers not only prevent bag closer damage, they also remove the weight of the unit from the operator, significantly reducing fatigue

The versatile Fischbein Model F portable bag stitcher is the perfect solution for small volume bagging applications that include the agricultural, food, pet, animal and chemical sectors. The Model F Series will handle your most demanding bag-closing jobs safely and efficiently.

This fast, heavy duty, versatile hand-held bag closer works with virtually all bag substrates including woven polypropylene and multi-wall paper bags. Whether you need a high quality bag closer for use in the field or on the process line, you will find that a Model F portable bag stitcher has what it takes to get the job done.

SPRING BALANCE UNIT

FEATURES

- Suits all portable bag closers
- 1.3m hanging scale
- Up to 7 kg payload
- Adjustable spring tension
- Retractable wire rope assembly

Heavy duty spring balance to support any model of portable bag closer. These durable balancers not only prevent bag closer damage, they also remove the weight of the bag closers unit from the user, significantly reducing operator fatigue.

With a 1.3m cable travel to suit all operator heights, the unit includes a formed steel hook that conveniently inserts through the centre of the bag closer handle.
