

AAT-10 BAG TURNER

FEATURES

- Suitable for woven, polyester, paper bags and sacks
- Heavy-duty
- Retrofits to existing conveyors or supplied with conveyor
- Compact design eliminates separate footprint
- Automated operation, no operator input required
- Fully adjustable to suit application

For inline bag turning applications. The AAT-10 Bag Turner lifts the bag, re-orientates, and releases for a gentle packaging-friendly action. Highly adjustable and can be mounted to existing conveyors.
